

## Background

Mr. Quear is a project coordinator and designer for LandArt Design Group, focusing on completion of all projects in a timely and professional manner. He prospers in a fast pace working environment, where he can work with all entities across several disciplines. His enjoyment comes from the progression of projects, starting with design process to the satisfaction of the end result. With an understanding of the technical aspects, he is able to create viable solutions with regards to surrounding conditions. His enthusiasm for nature and the outdoors gives him the passion needed for the landscape architecture profession.
